Carolyn,

Please see the attached "Draft" Additional Off-site Groundwater Investigation Work Plan for the former Amphenol Facility located at 980 Hurricane Road, Franklin, Indiana. The attached document is being submitted as "Draft" due to the EPA being on furlough. Therefore, the proposed temporary well locations included in the document were not reviewed with the EPA prior to submittal. Once the EPA returns, the document is reviewed, and temporary well locations are agreed upon, we will submit a final document.

Please let me know if you have any questions or concerns.

Sincerely,
Chris Parks
